Hearing Aunt Carlene's voice on my answering machine after work always brought a smile to my face! I will miss her always being there and organizing and maintaining our family records. No small feat for the Miller clan! Before the words "computer" or "digital" became everyday language to us, Aunt Carlene was using a manual typewriter, copier, stamps, and the good old U.S. Postal Service. There is no telling how many different cameras she used over the years to make sure special events were remembered and we always received copies in the mail no matter what. As we mourn her passing, she is celebrating with the Lord! I pray that all of you can picture that celebration and know that we will see her again!
