Trevor has fond memories of time spent at the Heitman home and especially Lynn's wonderful meals and good conversation. Trevor really marvelled at Lynn's intelligence and the knowledge that he shared with Trevor and Ryan. Trevor told me what a great man he was and how well everyone respected him. He will be greatly missed.

I worked very closely with Lynn for several years at GSI. He was an outstanding engineer, engineering manager, and friend. His organization accomplished several very very difficult marine seismic exploration systems developments during his time as Marine Engineering Manager. His people had deep respect for him because of his unique combination of leadership and technical abilities. He was a great guy, and I count it my good fortune to have been able to work with him.
