Margaret Elizabeth Denton

JAN 29, 1954 - JUN 27, 2025

Margaret Elizabeth Denton was born on January 29th, 1954, in Pilot Point, Texas. She passed on June 27th, 2025, in the city of Denton, surrounded by loved ones. She lived a long life full of creativity, adventure, and growth—showing her strength in various situations and always finding a way to make things better. She left things more beautiful than she found them and found inspiration in everything she touched.

A true artist, Meg followed her heart, and it led her to many places, careers, and people. From the mountains of New Mexico to the beaches of Cozumel, she had a knack for finding friends and the best local spots. With several successful careers including barber, graphic designer, massage therapist, and jeweler she was no stranger to hard work and found comfort and confidence in working with her hands.

An avid animal lover, she would tell you that as a child she always had a frog in her pocket. Her nurturing spirit carried into her adult life, too. Margaret was always surrounded by animals; she loved them dearly, and they were drawn to her, as if they knew she was a safe place. She was a safe place for people, too—always there to offer support and guidance.

Margaret will forever be carried in the hearts of those whose lives she touched and the people she loved. She leaves behind a family of artists, chefs, gardeners, singers, and writers. We will always and forever carry her with us in everything we do. All of these wonderful gifts she gave us; the beautiful outlook on life we now have because of her.

Wife, sister, mother, grandmother, great grandmother, and aunt—her spirit lives on in her family, and her essence in nature itself. From the dragonflies in the sky to the blooming flowers around our feet and everything in between, reminders of Margaret are all around us.

“In this life, I was loved by you.”

It's hard to name a fondest memory because there's just so many.. Mimi put the sparkle in my childhood. She was the glue to our family the mold and the foundation. Every goodbye ending in see you later alligator after while crocodile. She was the light for me when things got really dark.. She never gave up on me. She taught me so many things and gave me the heart that I have. She was a safe place for everyone with advice you always need it to hear. A very wise woman that was tough as nails , one of the strongest people I've ever had in my life. From plants and gardening to tree frogs, dogs ,cats,raccoons every creature and critter I was taught so many things through her. Cooking would be a big one I remember being her sous chef from an early age peeling potatoes or cutting vegetables and so much more. My favorite place when I came over was always her kitchen so many good smells coming from it . I just knew that something was going to be delicious when I got there. The random bites of food she put in your mouth to try that were always amazing. My first jellyfish sting.. with her telling me to pee on it and I just couldn't so she poured Coca-Cola all down my leg. From bad falls down her long dirt road with all the hard rocks picking them out of my knee she was always there for comfort and to reassure everything was going to be okay. Her closet was my other favorite place putting on her heels and Boots and big hats with her gorgeous clothes and dresses and of course all the accessories in the world. I always felt like a brand new person when I was a little girl as if I could walk the red carpet. She was a wonderful human being inside and out. There's so much more I could write about , but if you were to ask me the fondest memory.. It would be her being my Grandmother.. So many memories in one title that hold so much value and so much time... I am grateful that I got to experience the love that you had for your family. Gone but never forgotten.. I miss you so much.. I love you Mimi..
